Resource Sharing Challenge

Problem Statement

- Present pandemic has restored our need for community living. We have seen the way social and religious organization are contributing in providing relief to all sections of society.

- We still feel the need to have a model of community help at the smallest level of our society i.e our colony/ neighbourhood/ block level.

- For a person in urgent need of an oximeter, or an oxygen cylinder, an oxygen concentrator, a blood-pressure monitoring machine, a blood sugar testing kit, a nebulizer, or any other medical device which he can be provided by immediate neighbour who can spare it for a few hours until a formal help arrives.

What to Design?

- Can you present a design (with a semi-working prototype) for community help?

- It can be a website, or an android application or a console based implementation.

- Proposal will be judged by design and the range of aspects which model offers, rather than the coded implementation.

How to Participate?

- Any student of Jims-Rohini can participate in a team of 3 to 5 students. (from any academic stream or batch).

- Every team must have a team name.

- Team leader has to register his/her team with TekQbe coordinator via email mentioning complete team formation along with email-id and phone numbers of team members or click on the following link. <u>Register here</u>.

- Design a web/mobile/console based solution and present it in form of
  - A PowerPoint presentation
  - A semi-working model or prototype

- For prototype you can use any technology/language/framework

- Submission deadline: 14th May 2021

FAQ

Q1 . How many members can be there in a team?

Ans. One team can have maximum 3-5 members.

Q2. Where to register?

Ans. Click here to register yourself

Q2. Who can participate in this competition?

Ans. Any student of Jims-Rohini from any academic stream or batch can participate.

Q3. What is the duration of the competition?

Ans. The duration of the event is from 7, May 2021 to 14, May 2021.

Q4. Is there are any certificates for this event?

Ans. Yes, there are certificates for both participants as well as winners.

Q5. When would be the results will be announced?

Ans. The results will be announced within 1 week after the deadline.
